Equal-weight pressure-segment summaries

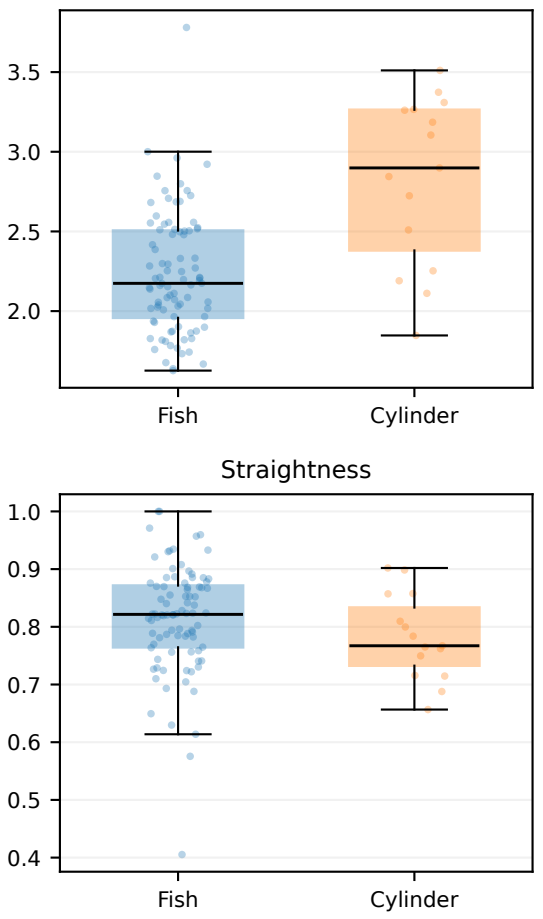

Mean area (grid cells)

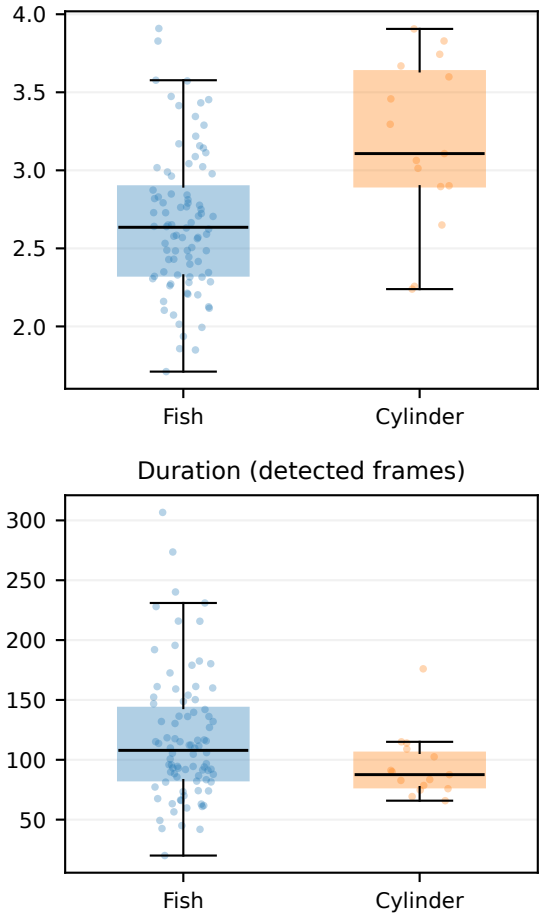

Maximum area (grid cells)

Mean equivalent radius (grid cells)

Maximum equivalent radius (grid cells)

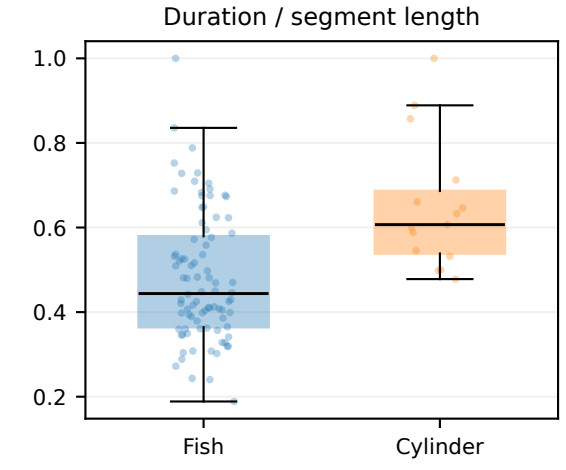

Displacement (grid cells)

Path length (grid cells)

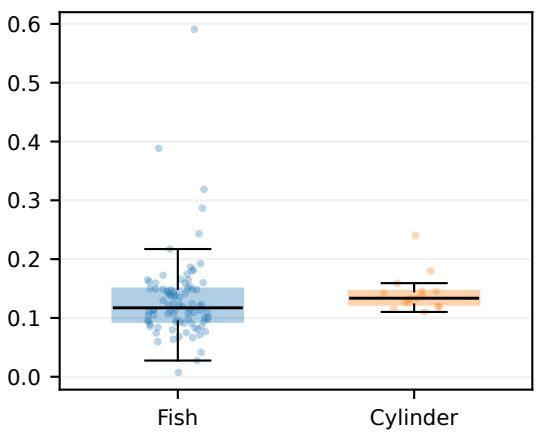

Straightness

Duration (detected frames)

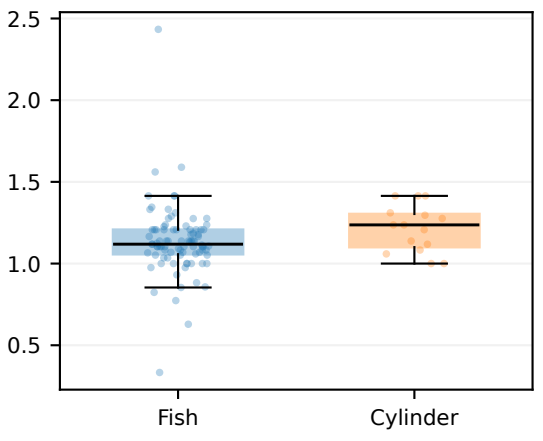

Duration / segment length

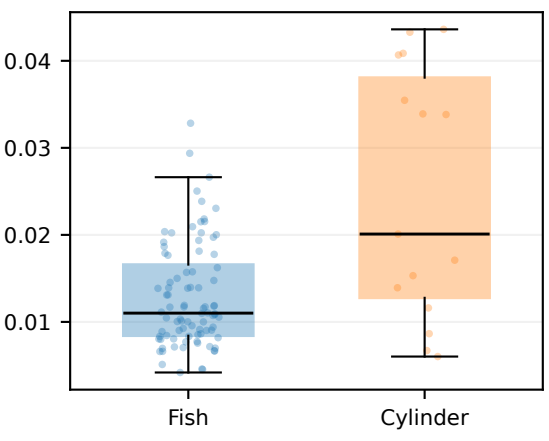

Mean speed (grid cells frame^{-1})

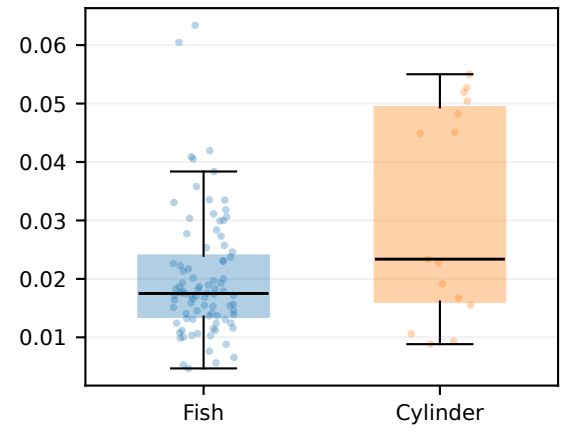

Maximum speed (grid cells frame^{-1})

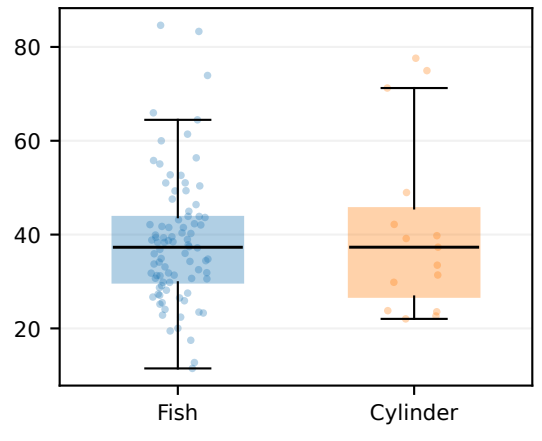

Mean core Q

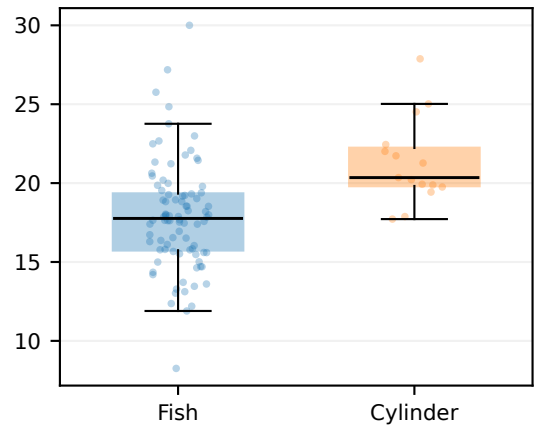

Maximum core Q

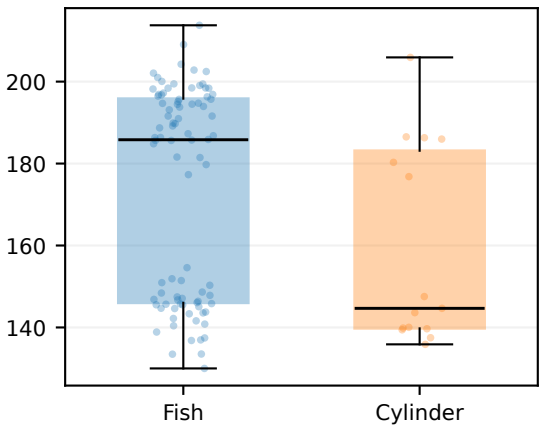

Mean body distance (grid cells)

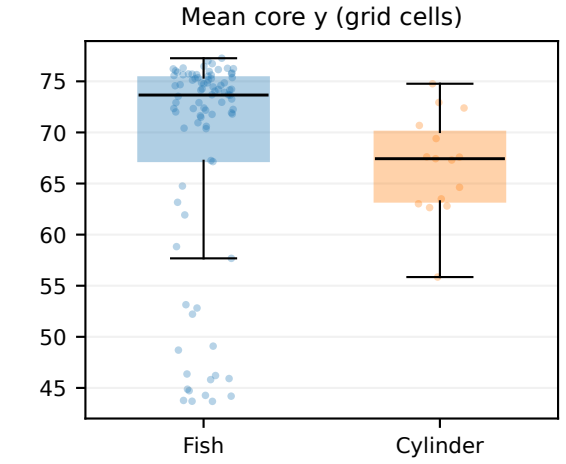

Mean sensor distance (grid cells)

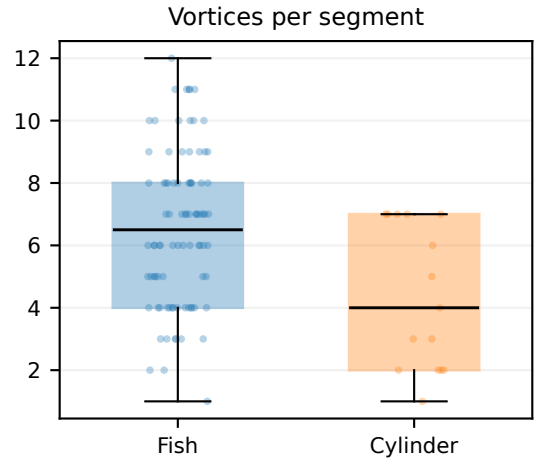

Mean core x (grid cells)

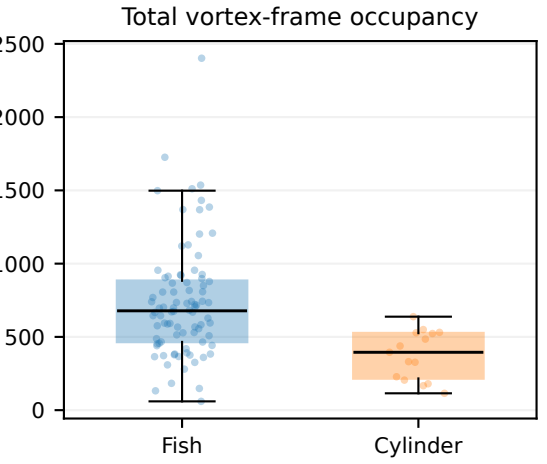

Mean core y (grid cells)

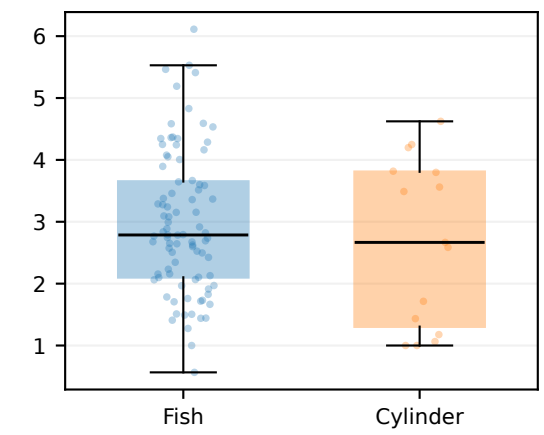

Vortices per segment

Total vortex-frame occupancy

Mean simultaneous vortices

Maximum simultaneous vortices
